EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Monica R. Gerber on 9/30/05.

The application has been amended as follows:

In claim 9, line 3, "first" was deleted; and --of the *C. elegans vap-1* gene-- was inserted between "element" and "directs".

In claim 25: in line 1, "is" was replaced with --comprises--; in line 2, "comprising between 1 nucleotide and 10 kB of sequence extending" was replaced with --extending up to 10 kB--.

In claim 46, in line 3 of step (d), --the regulatory region directs expression in a pharyngeal cell or amphid sheath cell and-- was inserted between "wherein" and "the detectable marker".

In claim 108: "between 1 nucleotide and 10 kB of" was replaced with --a--; and in line 2, --up to 10 kB-- was inserted between "extending" and "in a 5' direction".

The following is an examiner's statement of reasons for allowance:

The amendment to claim 9 was necessitated by the amendment to claim 1. The amendments to claims 25 and 108 use the language from the description of these embodiments in the specification (para. bridging pages 55-56). The amendment to claim 46 was made solely to more clearly indicate that the method is limited to those embodiments wherein the regulatory region identified in step (c) is limited to those that will direct expression in pharyngeal gland cells or amphid sheath cells in the transgenic nematode being made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
